Language Ability

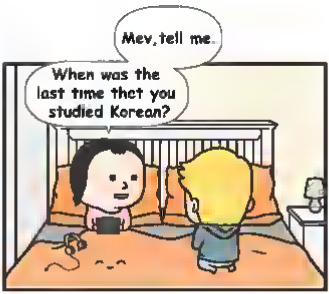
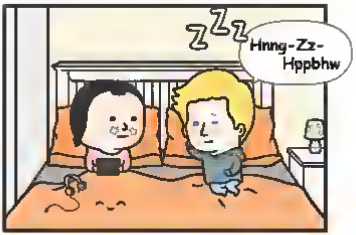
foreigners who can speak Korean very well
on Korean TV.

Automatically,
it makes me wonder.

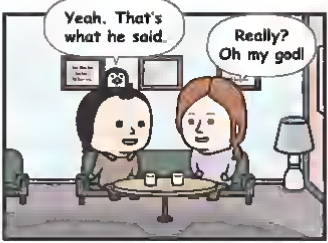
I'm not sure how much mativation
he gets from it though.

I can't help myself thinking.

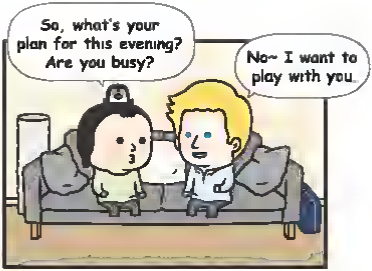




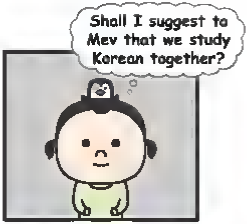
So I sometimes nag Mev



However, to be honest...



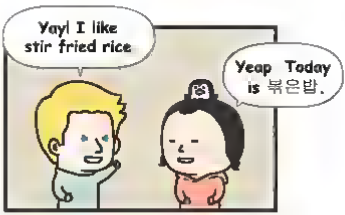
...as we're not in Korea, speaking in English is much easier for the bath of us...



...and I'm getting lazier about helping him to study as well.

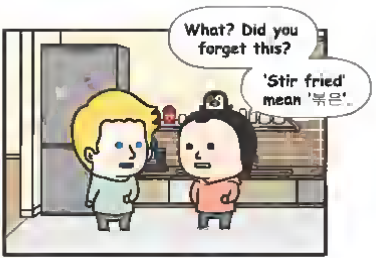
I guess I can't just blame him

However,
the most puzzled moment is...



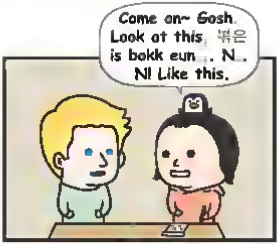
Yay! I like stir fried rice
Yeap Today is 볶은밥.

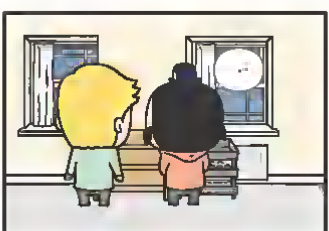
Eh? Your Korean pronunciation is so bad
What?



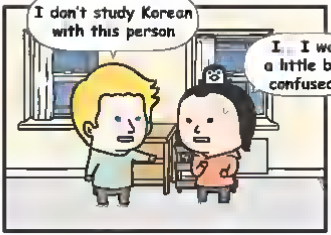
What? Did you forget this?
'Stir fried' mean '볶은'..

What?
What?





*Stir friend rice: 볶음밥 (Not 볶'은'밥)



... That's when I realized that I have my own fish to fry...
